WINTER 2020

# UNIVERSAL DESIGN FOR HEALTHY AGING: MOBILITY, METRICS + MEMORY

13% of the U.S. population is over 65 years + the National Institute on Aging predicts this demographic will double over the next 10 years. How will you design for this population?

*Outcomes from this course will be featured in local/national design exhibitions + industry symposium*

Course takes place between Eugene + PDX campuses

Transportation is provided

All College of Design Seniors + Graduate Students can apply to participate

Instructors: Sokolowski (SPD), Fretz (Arch), Hagenlocher (Interior Arch/Arch) + Salter (Art)

See your academic advisor for details

Course is generously funded through the Tinker Hatfield Award for Innovation
